

ENERGY STAR® Certified HVAC Equipment Rebate Application Form

As of 9/2/26, to qualify for air source heat pump incentives under this program, you must either: replace an existing ASHP with a new ASHP or have existing primary electric heating for your home. This includes already existing ccASHP. For ccASHP replacing fossil fuel heating and intended to supply 100% of the heating capacity in the home, please see our [JCP&L Clean Comfort](#) program meant for building decarbonization.

Please be advised that installing an air source heat pump where one does NOT already exist, and that will cover only a partial load of the home heating alongside an existing fossil fuel system, will no longer be incentivized in either the JCP&L Clean Comfort or HVAC program.

Please refer to the chart found on page 5 for qualifying ASHP equipment scenarios.

The HVAC Program provides rebates for the installation of high-efficiency HVAC equipment to residential customers of JCP&L. This equipment must be installed by a qualified contractor, be ENERGY STAR certified, and meet or exceed all additional requirements. Please submit one application per unit.

Please complete this application and email with subject line “JCP&L HVAC Rebate” to energysaveNJ@clearesult.com or mail to:

JCP&L HVAC Rebate Program
16350 Felton Rd.
Lansing, MI 48906

The following must be submitted with every rebate application:

1. A paid invoice dated between January 1, 2025, and June 30, 2027, indicating the type of equipment, installation date, purchase price, model number and serial number.
2. An Air Conditioning, Heating and Refrigeration Institute (AHRI) certificate, including unit model number, capacity and efficiency performance ratings. All minimum efficiency ratings must be met to qualify for a rebate. **If installing an Air Source Heat Pump – Cold Climate System, verify COP rating using the NEEP Product List (https://ashp.neep.org/#!/product_list/).**
3. All fields must be answered and information must be complete for your rebate to be processed.
4. You must submit **one** of the following:
 - A copy of the UPC label, distributor’s invoice, photo of the nameplate
 - A warranty registration confirmation showing the model and serial numbers
5. If you are applying for a qualifying gas measure, you must submit a photo of the previously existing/old unit.

Exclusion: Equipment installations in newly constructed homes are not eligible for this program. Gas furnace rebates will apply only for the replacement of inefficient non-condensing models with new, high-efficiency condensing models. Replacing an existing condensing model with a new condensing model will not be eligible.

Costs of these programs may be recovered through customer rates in accordance with New Jersey law. For a complete list of commercial, industrial, residential and low-income energy efficiency programs, please visit energysaveNJ.com

ENERGY STAR Certified HVAC Equipment Rebate Application Form

Customer Information

Complete all fields. Missing information will delay application processing.

Name (Account holder on record)			12-Digit Account Number			
Installation Address			City		State	NJ
Email Address			Contact Phone Number			
Number of Household Occupants		Type of Residence	☐ Single Family ☐ Multifamily		Customer Gas Account Number:	
Current Heating Provider:	☐ PSEG ☐ New Jersey Natural Gas ☐ Elizabethtown Gas ☐ Oil ☐ Propane		If Oil or Propane, Please Specify Provider:			
Date Installed			What is the approximate age of the existing system in years?			
Is this system installed as part of a new home construction project?	☐ Yes ☐ No		Is this system installed in an unconditioned (if new construction) or previously unconditioned space?		☐ Yes ☐ No	
How did you hear about this program?	☐ Bill Insert ☐ energysaveNJ.com ☐ Contractor ☐ Email ☐ Family/Neighbor/Friend ☐ JCP&L Employee					

Participating Contractor Information

Complete all fields. Missing information will delay application processing.

Contractor Name			Phone Number			
Address			City		State	NJ
HVAC License #		Email		Distributor Name		
Payment Goes To	☐ Customer ☐ Contractor If customer incentives are assigned as payment to the contractor: 1: "Contractor" box must be selected. 2: Paid invoice must clearly show incentives as a negative dollar amount discounted from total cost. 3: Customer must check the box and provide signature at the line acknowledging assignment below.					
Customer signature in this section should be supplied only when the rebate is being assigned to the contractor. The contractor must provide a W-9 form when submitting their first rebate through the JCP&L HVAC Rebate Program. Customer rebates assigned may be disbursed only to the contractor named above. The contractor is responsible for paying any subcontractors directly. ☐ I am submitting an application and certify that I am assigning the full rebate to the Participating Contractor listed on this application. I understand the rebate I qualify for has been applied as a discount off the purchase price of an eligible project of the JCP&L HVAC Rebate Program.						
Customer	Signature	Date	Print Name			

Project Home Details

Complete the following information on your existing HVAC system. Complete all fields. Missing information will delay application processing.

What is the existing HVAC heating fuel?	☐ Gas ☐ Electric ☐ Oil ☐ Propane				
What is the existing HVAC heating equipment type?	☐ Furnace ☐ Boiler ☐ Electric Resistance ☐ Heat Pump	Was the existing HVAC heating equipment functional?	☐ Yes ☐ No	If yes, is any part of the old heating system still in use?	☐ Yes ☐ No
What is the existing cooling equipment type?	☐ Split System Heat Pump ☐ Central A/C ☐ Room A/C ☐ Packaged Terminal A/C ☐ Packaged Terminal Heat Pump ☐ None	Was the existing cooling equipment functional?	☐ Yes ☐ No	If yes, is any part of the old cooling system still in use?	☐ Yes ☐ No

ENERGY STAR Certified HVAC Equipment Rebate Application Form

HVAC Energy Efficiency Systems — Minimum Efficiency Requirements

Central Air Conditioner

Measure Type	Manufacturer	Condenser Model No. Outside Unit	Condenser Serial No. Outside Unit	Coil Model No. Inside Unit	AHRI Certificate No.	Rebate Amount
SEER2 > 15.2, EER2 ≥ 12						\$100
SEER2 ≥ 17, EER2 ≥ 12						\$200
Is the existing equipment operational?		☐ Yes ☐ No				
Did you install a furnace with a central air conditioner? <i>If your AHRI reference number includes a furnace, please provide the furnace model number, as this information is required to qualify for the central air conditioner rebate.</i>				☐ Yes ☐ No ☐ Furnace is existing Furnace Model Number _____		

Please refer to the chart found on page 5 for qualifying ASHP equipment scenarios.

Air Source Heat Pumps — Standard (Ducted and Ductless Mini-Split Systems)

Measure Type	Manufacturer	Condenser Model No. Outside Unit	Condenser Serial No. Outside Unit	Coil Model No. Inside Unit	AHRI Certificate No.	Rebate Amount
SEER2 ≥ 15.2, EER2 ≥ 11.7, HSPF2 ≥ 7.8						\$500
SEER2 ≥ 17.1, EER2 ≥ 11.7, HSPF2 ≥ 7.8						\$750
SEER2 ≥ 17.1, EER2 ≥ 11.7, HSPF2 ≥ 7.8 (Mini-split heat pumps)						\$750
SEER2 ≥ 15.2, EER2 ≥ 10, HSPF2 ≥ 8.1 (Cold Climate, all types – COP 1.75 @ 5 degrees)						\$1,000
Did you install a furnace with an air source heat pump? <i>If your AHRI reference number includes a furnace, please provide the furnace model number, as this information is required to qualify for the heat pump rebate.</i>				☐ Yes ☐ No ☐ Furnace is existing Furnace Model Number _____		
If you installed a mini-split heat pump, is this item the primary or secondary HVAC system?				☐ Primary ☐ Secondary		
If secondary, what is the primary heating system?		☐ Furnace ☐ Boiler ☐ Electric Resistance ☐ Heat Pump				

Geothermal Heat Pumps — ENERGY STAR Certified

Measure Type	Manufacturer	Model No.	Serial No.	Rebate Amount
☐ Replacing an Air Source Heat Pump or Ground Source Heat Pump				\$1,500
☐ Replacing an Electric Forced Air Furnace/Central Air Conditioner				\$1,500
Provide the horsepower rating of the water pumps		Old: _____ New: _____		
Indicate new GSHP type:	☐ Water-to-Air Closed Loop ☐ Water-to-Air Open Loop ☐ Water-to-Water Closed Loop ☐ Water-to-Water Open Loop			
Does installation include a desuperheater?	☐ Yes ☐ No			

Furnace Fan Motor^{1, 2}

Minimum Requirements	Manufacturer	Model No.	Serial No.	Rebate Amount
Purchase and installation of a high-efficiency brushless magnet fan motor (BPM) or electrically commutated motor (ECM) to replace a permanent split capacitor (PSC) motor. Eligible only on existing equipment.				\$100
Does the residence have central cooling?	☐ Yes ☐ No			

¹ As found on energystar.gov

² Furnace fan motor rebate cannot be combined with a central air conditioner or heat pump rebate.

ENERGY STAR Certified HVAC Equipment Rebate Application Form

Heat Pump Water Heater

Minimum Requirements		Manufacturer	Model No.	Serial No.	Rebate Amount
ENERGY STAR certified					\$750
Does this replace a gas water heater?	☐ Yes ☐ No				
Fuel Type of Existing Water Heater	☐ Gas ☐ Oil ☐ Electric				
Is the existing water heater type a storage tank?	☐ Yes ☐ No				
Volume of Gallons of Water Stored in Existing Tank:	_____ gallons				
Installation Location	☐ Unconditioned Basement ☐ Garage ☐ Conditioned Space ☐ Unknown If Conditioned Space, provide HVAC Type: ☐ ASHP ☐ GSHP ☐ CAC ☐ MSHP ☐ Furnace ☐ Boiler				

Smart Thermostat – Limit 2 per Utility

For smart thermostat rebates, all information requested must be included to receive your rebate.

Minimum Requirements	Manufacturer/ Model No.	Serial No.	If smart thermostat controls natural gas heating, choose gas utility:	Gas Account No.	Rebate Amount
New installation or replacement of a manual or conventional programmable thermostat with an ENERGY STAR certified thermostat.			☐ Elizabethtown Gas ☐ New Jersey Natural Gas ☐ Public Service Electric & Gas		\$100
Notice: Smart thermostat must control central A/C, air source heat pump, ductless mini-split heat pump or a natural gas heating system to be eligible.					
Will the smart thermostat control Central Air Conditioning?	☐ Yes ☐ No				
Will the smart thermostat control heating?	☐ Electric ☐ Natural Gas ☐ Other ☐ None				
What type of heating system will the smart thermostat control?	☐ ASHP ☐ GSHP ☐ Furnace ☐ Resistance ☐ Boiler ☐ Unknown				

Enhanced Rebate for Low- to Moderate-Income Customers

\$300 enhanced rebate per unit for qualified HVAC equipment is available for low- to moderate-income (up to 400% FPIG) customers. Eligible for all HVAC equipment (excluding furnace fans and smart thermostats).

Do you live in a low- to moderate-income census tract area? To see if you qualify, visit: geomap.ffiec.gov/ffiecgeomap	☐ Yes ☐ No (If no, answer the questions below.)	
If you participate in one of the following assistance programs, you are automatically eligible for the additional \$300 enhanced incentive. Check all that apply:		
☐ Low-Income Home Energy Assistance Program (LIHEAP) ☐ Temporary Assistance to Needy Families (TANF) ☐ Pharmaceutical Assistance to the Aged and Disabled (PAAD) ☐ Supplemental Nutrition Assistance Program (SNAP)	☐ Lifeline ☐ Section 8 Housing Assistance ☐ General Assistance (GA) ☐ Supplemental Security Income (SSI)	☐ Universal Service Fund (USF) ☐ New Jersey SHARES (NJ SHARES) ☐ Payment Assistance for Gas and Electric (PAGE)

ENERGY STAR Certified HVAC Equipment Rebate Application Form

Acknowledgment

By signing and submitting this application, I agree to the terms and conditions of this document and certify that the information I have provided is true and accurate.

	Signature	Date	Print Name
Contractor			
Customer			

**All questions must be answered and fields must be completed in order to receive your rebate.
Incomplete applications will result in payment delays.**

HVAC Equipment Terms and Conditions

1. Applicant must be a New Jersey residential customer of JCP&L.
2. Rebate applications are valid for qualified equipment purchased and installed beginning January 1, 2025, through June 30, 2027.
3. **Rebate application must be submitted within 120 days of purchase.**
4. It is the responsibility of the customer to ensure that all requirements for the rebate are met. Failure to provide any of the required information will prevent processing of your application. Please submit one rebate form per unit.
5. Rebate payments are based on the equipment installation date. Customers must abide by the rules and rebate levels in effect on the date of installation. Rebate levels cannot exceed the cost of the equipment.
6. Purchase must be of qualified high-efficiency electric equipment as defined in the tables in this rebate form.
7. The efficiency levels are based on the Air Conditioning, Heating and Refrigeration Institute (AHRI) certified performance criteria of an outdoor unit and indoor coil (and/or furnace/blower) working together. These ratings are found on the AHRI directory.org website. All ENERGY STAR certified equipment must be listed at energystar.gov in order to participate in this program. Both the outdoor unit and coil/indoor unit must be replaced and installed as a matched set.
8. Payment will be issued to the account holder at mailing address on record with the utility or to submitting contractor as assigned by customer through their signature on this rebate form.
9. Please allow up to 30 days from the date all required information is received to process your rebate(s).
10. All rebated products must be installed and used at the service (install) address specified on the rebate application.
11. Program procedures, requirements and rebate levels are subject to change or cancellation without notice and are subject to available program funds.
12. If applying for incentives for natural gas and electric measures at the same time through JCP&L, it is prohibited to apply for the same incentive with the gas company.
13. JCP&L and/or their designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements. Such reviews will be made at a time convenient to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the rebate.
14. Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
15. You are urged to seek appropriate consultation concerning any tax liabilities that could be associated with the receipt of the rebate.
16. JCP&L and/or its designees, including program administrators, do not endorse any particular manufacturer or product as part of this program.
17. JCP&L, their parents, subsidiaries, affiliates, officers, employees, contractors and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of the participating contractor.
18. CLEAResult, their parents, subsidiaries, affiliates, officers, employees, contractors and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of the participating contractor.
19. The customer hereby agrees to indemnify, defend and hold harmless, JCP&L, their parents, subsidiaries, affiliates, officers, employees and agents from any and all liability associated with this project.
20. By submitting this application, customer agrees to the terms and conditions of this document and certifies that the information provided is true and accurate. Costs of these programs may be recovered through customer rates in accordance with New Jersey law. For a complete list of commercial, industrial, residential and low-income energy efficiency programs, please visit energysaveNJ.com
